European multilateral project “Leonardo da Vinci” presentation
(Lifelong Learning Program)

You are kindly invited to attend the presentation of the multilateral project Leonardo da Vinci “Beyond Numbers and Borders: An Innovative Approach to Accountancy” taking place on Friday 9th 2012 at school, in room 2A situated in the main school building in via Umbria.

Students and their parents, some local authorities and local press journalists will be also taking part in it.

This is the only project that has been approved by Regione Sardegna for the current school year, it involves 9 European countries – Italy, Portugal, France, Greece, Germany, Poland, Romania, Bulgaria, Turkey – and it will develop throughout the 2012-2014 period.

The first project meeting will take place in Istanbul (from 12th to 17th November 2012) and two students, Marco Cappai (5D) and Fabrizio Deidda (5A), together with the Headmaster Mr Antonello Scanu and the project leader Mrs Antonietta Melas will be there to represent our school.

All the schools involved in the project will be dealing with activities concerning the teaching/learning process of business studies subjects and with the vocational guidance in careers related to the legal, administrative, accounting and fiscal European context.

The whole activity will develop throughout the two-year lifetime and it will end with the working out, production and monitoring of the technical/operational material adopted by the different countries in order to focus on common knowledge, expertise and methodology so as to improve and enhance job opportunities in Europe and to promote cohesiveness among the different systems.

Our school will carry out the formulation of a dictionary concerning technical and professional terms which will involve the students of the classes 2A-2B-2C-2D-3A-3B-3C-3D-4A-5D-5A of our Institute (who will work at it during regular school hours) as well as the students of the other schools taking part in the project.

The development of the project includes 8 mobility activities and some teachers and students of our Institute will meet the other project partners in the different Member States.
The planned mobility activities for the current school year are taking place in

- France – in Haguenau at the Lycée des Métiers “André Siegfried” (March 2013)
- Portugal – in Albufeira at the “Centro de Formação de Associação” de Escolas de Albufeira, Lagoa, Silves (April 2013)
- Romania – in Singeorgiu de Mures at the “Fundatia Professional” (May 2013)

The Italian meeting will be held in Carbonia, at IIS “C. Beccaria”, in September/October 2013 and it will see the active participation of the schools and institutions of the project partners.

It will be a very important event both for our school and the whole town and community.

The Headmaster
Mr Antonello SCANU
