

## The classes involved in the project are:

**4A SIA** - Business Information Systems - from Carbonia

**4A** -Agricultural and Rural Development- from Santadi

The activities so far developed and carried out by **4A SIA-Carbonia** ( *Manuel ARCA, Andrea ARCERI, Simone BULLEGAS, Ari DEIDDA, Rachele DESSI, Michelle FOTI, Michele GUERRA, Alessandro MASCIULLO, Elisa MASILI, Giacomo MATZEU, Gloria PINNA, Giada PISANU, Alessandro RAMPINI, Lorenzo VOINI*) are the following ones:

1. From October to December 2015: learning path and practical activities for the creation and design of the project logo. The result of many hours spent on studying and working in the Computer Science Laboratory was the presentation of 3 logos, among which this one was chosen to become the Official Project Logo:

2. From November 2015 to January 2016: creation and customization of the online e-Twinning platform (through TwinSpace), the virtual space where all partners will share their contributions and ideas and where they can organise periodic online meetings or events.
3. During the First Transnational Meeting, held in Italy in January 2016, presentation (in English) to all the teachers taking part in the Project and coming from 6 partner-countries of:
  - 3.1 The path to the creation and choice of the logo.
  - 3.2 The e-Twinning platform and its development for the needs of the Project.
4. From January 2016 onwards, students are managing the platform on Twinspace and they are offering technical assistance to all partners in order to enable them to make the most of the platform
5. In February-March 2016, students 'created' a story (in English) whose main character was a *new and innovative product*, that might be really sold through the creation of a start-up: the story was presented to the partners during the First Training Activity held in Estonia in April 2016.

The activities they are going to carry out between June and September are:

- a. The creation and design of the project website [www.minientrepreneurs.eu](http://www.minientrepreneurs.eu)
- b. The creation and design of the e-book that will contain different kinds of documents created, developed, produced and delivered by all partners.
